

OCULUS RIFT

IRISVR

We will give a quick overview of new VR technology in 2015, and then dive into the software IrisVR is working on to help BIM professionals visualize space in the Oculus Rift.

BEACON TECHNOLOGY

GIMBAL

Gimbal will share its recently-released Series 21 device, as well as freely-available beacons and iPhone app that lets developers activate, configure and measure engagement between their apps and beacon devices. Gimbal provides beacons to agencies, brands, retailers and venue owners, including AEG, Live Nation, Madison Square Garden, MLB, Ogilvy Razorfish, Staples Center, SXSW, Titan Outdoor, Tribeca Film Festival, Urban Airship & U.S. Open (tennis).
